

# MARISOL OKONKWO-BRENNAN

Senior Backend Engineer | Portland, Oregon | m.okonkwo@example.com

Authorized to work in the United States without sponsorship.

## EXPERIENCE

### Staff Software Engineer, Halcyon Freight Systems — March 2021 to Present

- Cut p95 checkout latency from 940ms to 205ms by introducing a read-through Redis cache in front of the pricing service
- Led the migration of 41 services from Nomad to Kubernetes across two regions
- Designed the idempotency layer that eliminated duplicate carrier bookings

### Senior Backend Engineer, Verdigris Analytics — January 2017 to February 2021

- Built the billing reconciliation pipeline processing 2.4 million events per day
- Reduced Postgres storage cost 38% by partitioning the events table by month

### Backend Engineer, Tessellate Labs — June 2014 to December 2016

- Shipped the public REST API used by 180 integration partners

## PROJECTS

**pgqueue — an open-source Postgres-backed job queue used by 300 repositories**

## EDUCATION

Oregon State University — BSc Computer Science, 2014

## CERTIFICATIONS

Certified Kubernetes Administrator

## SKILLS

Languages: Python, Go, SQL, TypeScript

Infrastructure: Kubernetes, Terraform, PostgreSQL, Redis, Kafka
